

“R&S 2017”

www.mbres.it

This is the 42nd edition of the Annual Directory of leading Italian companies, which Ricerche e Studi has been publishing since 1976.

The 2017 edition includes 50 groupings of large listed Italian companies; given the presence of a substantial sub-grouping, this has also been included as an annex, hence the Directory actually covers some 67 companies. Information on other listed and unlisted companies will be published separately on the website www.mbres.it as and when it has been processed.

The 50 groupings, 41 of which are industrial and service companies, 6 banks and 3 insurances, have been selected based on three criteria: capital invested, value added, and free float capitalization. Unlike the previous hard copy edition, the new edition contains files for Ansaldo STS, Diasorin, Interpump Group (already available in the online version), Italgas, Saipem (previously attached to the Eni file) and Saras – Raffinerie Sarde. Conversely, the files on De Agostini (including the International Game Technology PLC attachment), IMMSI (including the Piaggio & C. attachment), Pirelli & C., STMicroelectronics N.V. and Tenaris S.A. have been excluded, but will, however continue to be published in the online version (for STMicroelectronics N.V. and Tenaris S.A. as the sole attachments of the STMicroelectronics s.r.l and Dalmine files respectively); the Italmobiliare file (including the Italcementi attachment) has also been excluded.

The list of subsidiaries and their respective shareholders encompasses some 5,600 businesses, and that of directors and statutory auditors around 850 people.

The 1,104-page volume is on sale at a price of EUR 150.00 incl. VAT and may be ordered from Ricerche e Studi S.p.A., Foro Buonaparte 10, 20121 Milan, Italy (fax no. 0039-02-862267), or purchased via credit card at:
