

“R&S 2018”

www.mbres.it

This is the 43rd edition of the Annual Directory of leading Italian companies, which Ricerche e Studi has been publishing since 1976.

The 2018 edition includes 50 groupings of large listed Italian companies; given the presence of a substantial sub-grouping, this has also been included as an annex, hence the Directory actually covers some 67 companies. Information on other listed and unlisted companies will be published separately on the website www.mbres.it as and when it has been processed.

The 50 groupings, 42 of which are industrial and service companies, 6 banks and 2 insurances, have been selected based on three criteria: capital invested, value added, and free float capitalization. Unlike the previous hard copy edition, the new edition contains files for ENAV, I.M.A. Industria Macchine Automatiche and Pirelli & C. (the latter already available in the online version). Conversely, the files on Ansaldo STS, Cattolica Assicurazioni and TOD’S have been excluded; Ansaldo STS and TOD’S will however continue to be published in the online version.

The list of subsidiaries and their respective shareholders encompasses some 5,800 businesses, and that of directors and statutory auditors around 800 people.

The 1,100-page volume is on sale at a price of EUR 150.00 incl. VAT and may be ordered from Ricerche e Studi S.p.A., Foro Buonaparte 10, 20121 Milan, Italy (fax no. 0039-02-862267), or purchased via credit card at:
